

## “Frog game”

Just as in the game “Tiddlywinks” the aim is, to let the frogs jump into the baskets. The rules are left to the discretion of the players.

The game consists of four baskets in four different colours with each four assorted frogs and one green “joker-frog”. Frogs and baskets are folded of paper. The game is kept in a handmade box of 2mm cardboard, covered with dark blue *Efalin* and Italian *Carta Varese* on the outside and red *Efalin* on the inside. NOTE: The game is aimed at older or very old children as the tokens like to be handled with care.
